A stationary pallet changer is used for transferring goods from wooden pallets to plastic pallets or vice-versa. It is a cost-effective and efficient way to transfer goods from one load carrier to another. When used in combination with a load-push attachment on a forklift, goods that were originally stored on wooden pallets can be transported without any load carrier. By using a push-pull attachment instead of load pusher it is also possible to transport the goods on slip sheets.

The stationary pallet changer is mainly used in industries where some products, i.e. liquids, cannot be inverted as this would cause problems with validation or in industries where goods are packed in fragile packaging materials. The pallet changer is often placed within a receiving area where inbound goods can quickly be transferred to captive pallets, typically plastic or aluminum pallets, and the wooden pallets can then be isolated from the rest of the facility for sanitary reasons, (i.e. food processing, pharmaceuticals, etc...). The pallet changer allows companies currently using manual labor to drastically reduce operational costs and avoid injury risks and it provides an affordable alternative to more complex transfer systems.

**Features compared to pallet inverters**
- Improved handling speed.
- No clamping of goods.
- No inversion of load.
- Simple construction.
- Less maintenance because of no rotation parts.
- Faceplate speed reduction for end positions.
- Remote controlled.
- Plug & play.

**Standard safety features**
- Safety circuit CAT 3/Pl.d.
- Adjustable limit for receiving range of remote control.
- Buzzer.
- Beacon light.
Stationary Pallet Changer

Base unit:

- SPC20-1220-B
  Including: remote-control, buzzer and beacon light

Power supply

- 3ph/230V/16A/50Hz
- 3ph/400V/16A/50Hz
- 3ph/480V/16A/60Hz

Platforms:

- SPC20/1220/HLP-S
- SPC20/1220/HLP-D
- SPC20/1220/TLP-S
- SPC20/1220/TLP-D

Operational options:

- Pendant control box
- Remote control with safety light curtain
- Two hand control station with metal foot included
- Slipsheet profile
- Octabin Adapter
- Foldable palletstop

Remarks:

- Other capacities, dimensions, voltages, amperes, etc. on request.
